# FACTORY RESET

A gang of insane self-proclaimed entrepreneurs led by a genius child stuck in an adult body seek recognition for their debatably brilliant inventions.

Child genius Ben wakes up from a 40-year coma and discovers all of his inventions from the 70s – including THE INTERNET – were stolen by his brother, the now world-famous “smarty” Marty. Ben recruits four frustrated, possibly crazy, entrepreneurs who take credit for inventions such as cellphones, sunscreen, twerking and peace, and launches **CandyLab** compete with Marty’s huge corporation Engaño. If they work together, and if the child-minded Ben can stay focused, they just might re-invent the world and take back what’s theirs – **glory!**

## MOMMY (30)

"Mommy", an ex-mercenary, is the new chaperone for Ben and his senile parents. He eventually becomes the designated grownup at CandyLab, combining his talents for business, nursing, and revenge.

## LISA (30)

Lisa is a cyber terrorist with one main goal: destroy corporations to make the world a better place. No one, however, wants to listen to her crazy ideas or accept her anarchy-fueled patent applications.

## BEN (45)

Ben is a childish genius with a just cause and 40 years of revenge to catch up on. He is vain and plans on getting his "well-deserved" glory, along with candy and toys, whatever the cost.

## VITALI (20)

Vitali is a Russian hippie who likes having nice things so he uses his people skills to be a gifted marketer and advertiser. He's a pacifist who is literally paralyzed with fear at even the slightest hint of conflict.

## MARTY (50)

Marty regrets what he did to Ben, but since Ben isn't about to put it in the past, Marty is left with only one option: make CandyLab disappear and insure his reputation remains untainted by the truth.

## DEAD WANNAAGITATYA (78)

Dead is either a genius or a liar and his very visible nose hairs make most keep their distance. Still, whatever you need, Dead knows someone, which is why Ben keeps him around.

## JIMBAH (9)

A young genius and Ben's window into the 40 years he's missed. Vitali suspects she's a robot and Lisa has unofficially adopted her as a daughter and soldier. For Jimbah, CandyLab is home.

## THE ENGAÑO MUSEUM

At the unveiling of Marty's brand new museum, Ben is enraged at the exhibits showcasing his inventions as Marty's. At a public Q&A, Ben cross-examines Marty, but is crushed with plausible lies. Ben remembers that his fingerprints are on one of the invention sketches but the evidence goes missing as soon as it's mentioned.

## FENG SHUI TERROR

Enraged by a fight with Vitali, Lisa is determined to blow up USPTO HQ. Jimbah beats Bet at videogames and he kicks her out. Mommy learns of Lisa's plan and must get Ben to remotely disarm her weapon, but when Ben tells him about Vitali and Lisa, Mommy decides to get everyone to make up like only a loving ex-mercenary knows how.

## KINGREDIENT

Hours after inventing a brilliant app that reveals ingredients in any nearby dish, Jimbah disappears. Certain she's either been kidnapped by Marty or hired by Engaño, Lisa goes on a daring rescue mission while Ben keeps prank calling Engaño HQ. Meanwhile, Dead calls up Julio McBernstein, the vilest patent lawyer you'll ever meet.
